Prevention Staff with Judi Stagg

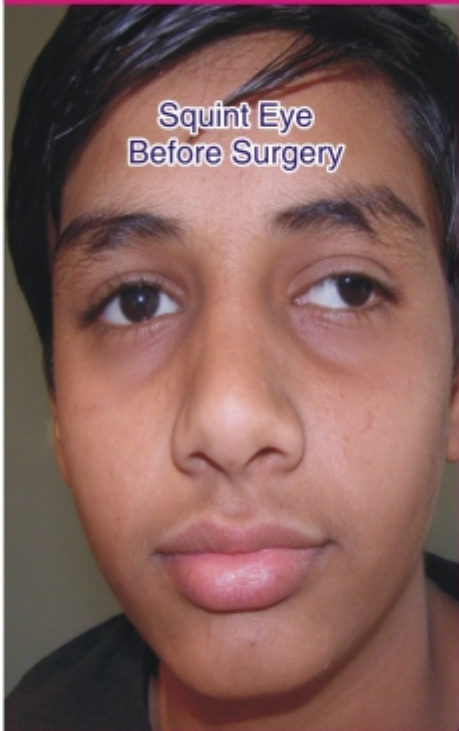

Prevention Department

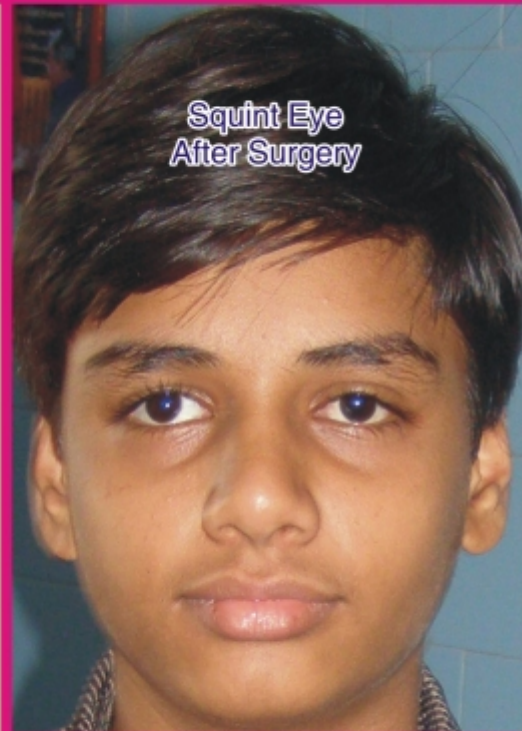

IMPACT UK's vision is a world free from needless disability. The programme prevents and treats needless disability. It also works towards the rehabilitation of the challenged to give them an equal chance at a dignified life.

Through the Disability Prevention Programme thousands of children, women and men have been prevented from being a victim of disability. Prevention programmes are cost effective and thus the need of the hour for mankind. The Prevention Programme continues its mission to reach out to the people of Bhavnagar District. Thus IMPACT in partnership with PNR Society started in 2002, the Disability Prevention Partnership Programme in Bhavnagar District. The Dalal Family Foundation, USA believed in the entire programme to help prevent disability and since year 2013 has been a vital partner too.
